INSTRUCTION (NUMBER 9) FOR PRESCRIBED BUSINESSES**BUSINESS FROM SENSITIVE SOURCES**

6 December 2010

This Instruction is made under section 49A(7) of the Criminal Justice (Proceeds of Crime) (Bailiwick of Guernsey) Law, 1999 and repeals Instruction number 8 for prescribed businesses.

This Instruction is being issued in light of a request from the Financial Action Task Force (FATF) for jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism risks emanating from jurisdictions which have deficiencies in their anti money laundering and financing of terrorism regimes. In this regard, the FATF has issued two documents, namely "The FATF Public Statement" and "Improving Global AML/CFT Compliance: On-Going Process". These documents are quoted below.

This Instruction is also being issued to address specific concerns that have been brought to the attention of the Commission in respect of Venezuela and west Africa.

ACTION TO BE TAKEN BY PRESCRIBED BUSINESSES

Prescribed businesses must exercise a greater degree of caution when taking on business from the countries or territories specified in this Instruction. Additionally, prescribed businesses must ensure enhanced client due diligence measures are undertaken and special attention given to all existing and new business relationships and transactions connected with such countries or territories.

The action taken by each prescribed business under this Instruction will be reviewed during on-site inspections and by other means as necessary.

THE FATF PUBLIC STATEMENT

"The Financial Action Task Force (FATF) is the global standard setting body for anti-money laundering and combating the financing of terrorism (AML/CFT). In order to protect the international financial system from ML/FT risks and to encourage greater compliance with the AML/CFT standards, the FATF identified jurisdictions that have strategic deficiencies and, along with the FATF-style regional bodies

(FSRBs), works with them to address those deficiencies that pose a risk to the international financial system. The FATF and the relevant FSRBs will continue to work with the jurisdictions below and report on their progress in addressing the identified deficiencies.

1. Jurisdictions subject to a FATF call on its members and other jurisdictions to apply counter-measures to protect the international financial system from the ongoing and substantial money laundering and terrorist financing (ML/TF) risks emanating from the jurisdiction *:

Iran

2. Jurisdictions with strategic AML/CFT deficiencies that have not committed to an action plan developed with the FATF to address key deficiencies as of October 2010. The FATF calls on its members to consider the risks arising from the deficiencies associated with the jurisdiction, as described below.

Democratic People's Republic of Korea (DPRK)

* The FATF has previously issued public statements calling for counter-measures on Iran. Those statements are updated below.

1. Jurisdictions subject to a FATF call on its members and other jurisdictions to apply counter-measures to protect the international financial system from the ongoing and substantial money laundering and terrorist financing (ML/TF) risks emanating from the jurisdiction:

Iran

The FATF welcomes the recent steps that Iran has taken to engage with the FATF, but remains concerned by Iran's failure to meaningfully address the ongoing and substantial deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime. The FATF remains particularly concerned about Iran's failure to address the risk of terrorist financing and the serious threat this poses to the integrity of the international financial system. The FATF urges Iran to immediately and meaningfully address its AML/CFT deficiencies, in particular by criminalising terrorist financing and effectively implementing suspicious transaction reporting (STR) requirements.

The FATF reaffirms its call on members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with Iran, including Iranian companies and financial institutions. In addition to enhanced scrutiny, the FATF reaffirms its 25 February 2009 call on its members and urges all jurisdictions to apply effective counter-measures to protect

their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from Iran. FATF continues to urge jurisdictions to protect against correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices, and to take into account ML/FT risks when considering requests by Iranian financial institutions to open branches and subsidiaries in their jurisdiction. If Iran fails to take concrete steps to improve its AML/CFT regime, the FATF will consider calling on its members and urging all jurisdictions to strengthen counter-measures in February 2011.

2. Jurisdictions with strategic AML/CFT deficiencies that have not committed to an action plan developed with the FATF to address key deficiencies as of October 2010. The FATF calls on its members to consider the risks arising from the deficiencies associated with the jurisdiction, as described below.

Democratic People's Republic of Korea (DPRK)

The Democratic People's Republic of Korea (DPRK) has not committed to the AML/CFT international standards, nor has it responded to the FATF's numerous requests for engagement on these issues. DPRK's lack of a comprehensive AML/CFT regime poses a risk to the international financial system. DPRK should work with the FATF to develop a viable AML/CFT regime in line with international standards".

IMPROVING GLOBAL AML/CFT COMPLIANCE: ON-GOING PROCESS

"As part of its ongoing review of compliance with the AML/CFT standards, the FATF has to date identified the following jurisdictions which have strategic AML/CFT deficiencies for which they have developed an action plan with the FATF. While the situations differ among each jurisdiction, each jurisdiction has provided a written high-level political commitment to address the identified deficiencies. FATF welcomes these commitments.

A large number of jurisdictions have not yet been reviewed by the FATF. The FATF continues to identify additional jurisdictions, on an ongoing basis, that pose a risk in the international financial system. The new jurisdictions identified in this document are: Bangladesh, Ghana, Honduras, Philippines, Tanzania, Venezuela, and Vietnam. The FATF has additionally begun initial reviews of a number of other jurisdictions as part of this process and will present its findings next year.

The FATF and the FSRBs will continue to work with the jurisdictions noted below and to report on the progress made in addressing the identified deficiencies. The FATF calls on these jurisdictions to complete the implementation of action plans expeditiously and within the proposed timeframes. The FATF will closely monitor the implementation of these action plans and encourages its members to consider the information presented below.

Venezuela

It has come to the attention of the Commission that there may be doubts over the validity of some identity documents issued in Venezuela. In light of widespread corruption in that country, it has been suggested that corrupt officials have been issuing national identity cards and passports to criminals and to individuals with suspected links to terrorist organisations.

It should also be noted that, due to its proximity to the major drug producing country of Colombia, Venezuela has become an important hub for the transport of drugs for consumption in the United States and western Europe.

West Africa

The Commission notes that there has been a significant increase in trafficking between South America and west Africa of drugs that are ultimately destined for use in western Europe. A number of the same countries have also been traditionally used as transit points for heroin from south west and south east Asia. Furthermore, it should be noted that people trafficking continues to take place in the more northerly group of west African countries.

The concerns of the Commission relate to the west African countries of:

Morocco
Mauritania
Senegal
Cape Verde Islands
Guinea-Bissau
Guinea
Sierra Leone
Liberia
Ivory Coast
Ghana
