This Instruction is made under section 49(7) of the Criminal Justice (Proceeds of Crime) (Bailiwick of Guernsey) Law, 1999 and repeals Instruction number 12 for financial services businesses.

This Instruction is being issued in light of a request from the Financial Action Task Force (FATF) for jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism risks emanating from jurisdictions which have deficiencies in their anti money laundering and financing of terrorism regimes. In this regard, the FATF has issued two documents, namely “The FATF Public Statement “and “Improving Global AML/CFT Compliance: On-Going Process”. These documents are quoted below.

This Instruction is also being issued to address specific concerns that have been brought to the attention of the Commission in respect of Venezuela and west Africa.

ACTION TO BE TAKEN BY FINANCIAL SERVICES BUSINESSES

Financial services businesses must exercise a greater degree of caution when taking on business from the countries or territories specified in this Instruction. Additionally, financial services businesses must ensure enhanced customer due diligence measures are undertaken and special attention given to all existing and new business relationships and transactions connected with such countries or territories.

The action taken by each financial services business under this Instruction will be reviewed during on-site inspections and by other means as necessary.

Iran

The FATF remains concerned by Iran's failure to meaningfully address the on-going and substantial deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime. The FATF remains particularly concerned about Iran's failure to address the risk of terrorist financing and the serious threat this poses to the integrity of the international financial system. The FATF urges Iran to immediately and meaningfully address its AML/CFT deficiencies, in particular by criminalising terrorist financing and effectively implementing suspicious transaction reporting (STR) requirements.

The FATF reaffirms its call on members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with Iran, including Iranian companies and financial institutions. In addition to enhanced scrutiny, the FATF reaffirms its 25 February 2009 call on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from Iran. FATF continues to urge jurisdictions to protect against correspondent relationships being used to bypass or evade counter-measures and risk

mitigation practices and to take into account ML/FT risks when considering requests by Iranian financial institutions to open branches and subsidiaries in their jurisdiction. If Iran fails to take concrete steps to improve its AML/CFT regime, the FATF will consider calling on its members and urging all jurisdictions to strengthen counter-measures in October 2011.

Democratic People's Republic of Korea (DPRK)

The FATF remains concerned by the DPRK's failure to address the significant deficiencies in its anti-money laundering and combating the financing of terrorism (AML/CFT) regime and the serious threat this poses to the integrity of the international financial system. The FATF calls on its members and urges all jurisdictions to advise their financial institutions to give special attention to business relationships and transactions with the DPRK, including DPRK companies and financial institutions. In addition to enhanced scrutiny, the FATF further calls on its members and urges all jurisdictions to apply effective counter-measures to protect their financial sectors from money laundering and financing of terrorism (ML/FT) risks emanating from the DPRK. Jurisdictions should also protect against correspondent relationships being used to bypass or evade counter-measures and risk mitigation practices, and take into account ML/FT risks when considering requests by DPRK financial institutions to open branches and subsidiaries in their jurisdiction.

In February 2010, Ukraine made a high-level political commitment to work with the FATF and MONEYVAL to address its strategic AML/CFT deficiencies. Since that time, Ukraine has demonstrated progress in improving its AML/CFT regime, including by adopting legislation that aims to address issues relating to criminalisation of money laundering and terrorist financing and freezing of terrorist assets under UNSCR 1373. The FATF will conduct an on-site visit to confirm that the

process of implementing the required reforms and actions is underway to address deficiencies previously identified by the FATF.

Venezuela

In October 2010, Venezuela made a high-level political commitment to work with the FATF and CFATF to address its strategic AML/CFT deficiencies. The FATF has determined that certain strategic deficiencies remain. Venezuela should continue to work with the FATF and CFATF on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising terrorist financing (Special Recommendation II); (2) establishing and implementing adequate procedures to identify and freeze terrorist assets (Special Recommendations I and III); (3) ensuring a fully operational and effectively functioning Financial Intelligence Unit, in particular addressing the operational autonomy of the FIU (Recommendation 26); (4) implementing adequate CDD guidelines for all sectors (Recommendation 5); and (5) establishing adequate STR reporting obligations for ML and FT (Recommendation 13 and Special Recommendation IV). The FATF encourages Venezuela to address its remaining deficiencies and continue the process of implementing its action plan.

Vietnam

In October 2010, Vietnam made a high-level political commitment to work with the FATF and APG to address its strategic AML/CFT deficiencies. The FATF has determined that certain strategic AML/CFT deficiencies remain. Vietnam should continue to work with the FATF and APG on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising money laundering and terrorist financing (Recommendation 1 and Special Recommendation II); (2) establishing and implementing adequate procedures to identify and freeze terrorist assets (Special Recommendation III); (3) making legal persons subject to criminal liability in line with FATF Recommendation 2 or demonstrating that there is a constitutional prohibition to prevent this (4) improving the overall supervisory framework (Recommendation 23); (5) improving and broadening customer due diligence measures and reporting requirements (Recommendation 5, 13, and Special Recommendation IV); and (6) strengthening international cooperation (Recommendations 36, 40). The FATF encourages Vietnam to address its remaining deficiencies and continue the process of implementing its action plan.

Yemen

In February 2010, Yemen made a high-level political commitment to work with the FATF and MENAFATF to address its strategic AML/CFT deficiencies. The FATF has determined that certain strategic deficiencies remain. Yemen should continue to work on implementing its action plan to address these deficiencies, including by: (1) establishing and implementing adequate procedures to identify and freeze terrorist assets (Special Recommendation III); (2) issuing substantive guidance/instructions to reporting institutions with respect to their ML/FT obligations (Recommendation 25); (3) developing the monitoring and supervisory capacity of the financial sector

supervisory authorities and the FIU, to ensure compliance by financial institutions with their STR obligations, especially in relation to FT (Recommendation 23); and (4) ensuring a fully operational and effectively functioning Financial Intelligence Unit (Recommendation 26). The FATF encourages Yemen to address its remaining deficiencies and continue the process of implementing its action plan.

Zimbabwe

In June 2011, Zimbabwe made a high-level political commitment to work with the FATF and ESAAMLG to address its strategic AML/CFT deficiencies. Zimbabwe has taken steps towards improving its AML/CFT regime. However, the FATF has determined that strategic AML/CFT deficiencies remain. Zimbabwe will work on implementing its action plan to address these deficiencies, including by: (1) adequately criminalising money laundering and terrorist financing (Recommendation I and Special Recommendation II); (2) establishing and implementing adequate procedures to identify and freeze terrorist assets (Special Recommendation III); (3) ensuring a fully operational and effectively functioning Financial Intelligence Unit (Recommendation 26); (4) ensuring financial institutions are aware of and comply with their obligations to file suspicious transaction reports in relation to ML and FT (Recommendation 13 and Special Recommendation IV); (5) enacting and implementing appropriate mutual legal assistance legislation (Special Recommendation V); and (6) implementing the 1999 International Convention for the Suppression of Financing of Terrorism (Special Recommendation I). The FATF encourages Zimbabwe to address its remaining deficiencies and continue the process of implementing its action plan.

Greece

The FATF welcomes Greece's significant progress in improving its AML/CFT regime and notes that Greece has met its commitments in its Action Plan regarding the strategic AML/CFT deficiencies that the FATF had identified in February 2010. Greece is therefore no longer subject to FATF's monitoring process under its on-going global AML/CFT compliance process. Greece will work with the FATF in further strengthening its AML/CFT regime.

Jurisdiction not making sufficient progress

The FATF is not yet satisfied that the following jurisdiction has made sufficient progress on its action plan agreed upon with the FATF. The most significant action plan items and/or the majority of the action plan items have not been addressed. If this jurisdiction does not take sufficient action to implement significant components of its action plan by October 2011, then the FATF will identify this jurisdiction as being out of compliance with its agreed action plans and will take the additional step of calling upon its members to consider the risks arising from the deficiencies associated with the jurisdiction.

São Tomé and Príncipe

Despite São Tomé and Príncipe's high-level political commitment to work with the FATF to address its strategic AML/CFT deficiencies, the FATF is not yet satisfied that São Tomé and Príncipe has made sufficient progress in implementing its action plan, and certain strategic deficiencies remain. São Tomé and Príncipe should work on addressing these deficiencies, including by: (1) adequately criminalising money laundering and terrorist financing (Recommendation 1 and Special Recommendation II); (2) establishing a fully operational and effectively functioning Financial Intelligence Unit (Recommendation 26); (3) ensuring that financial institutions and DNFBPs are subject to adequate AML/CFT regulation and supervision, and that a competent authority or competent authorities have been designated to ensure compliance with AML/CFT requirements (Recommendations 23, 24 and 29); (4) implementing effective, proportionate and dissuasive sanctions in order to deal with natural or legal persons that do not comply with the national AML/CFT requirements (Recommendation 17); and (5) taking the necessary action to gain membership of GIABA. The FATF encourages São Tomé and Príncipe to address its remaining deficiencies and continue the process of implementing its action plan."

CONCERNS OF THE GUERNSEY FINANCIAL SERVICES COMMISSION REGARDING LIBYA, VENEZUELA AND WEST AFRICA

Libya

Financial services businesses must be alert to the potential for the increased movement of assets related to events in Libya. When assessing risks related to particular business relationships and occasional transactions, financial services businesses must consider that events in Libya may have a possible impact on patterns of financial activity. Assets could potentially represent misappropriated or diverted state assets, proceeds of bribery, public corruption or other illegal payments.

Venezuela

It has come to the attention of the Commission that there may be doubts over the validity of some identity documents issued in Venezuela. In light of widespread

corruption in that country, it has been suggested that corrupt officials have been issuing national identity cards and passports to criminals and to individuals with suspected links to terrorist organisations.

It should also be noted that, due to its proximity to the major drug producing country of Colombia, Venezuela has become an important hub for the transport of drugs for consumption in the United States and western Europe.

West Africa

The Commission notes that there has been a significant increase in trafficking between South America and west Africa of drugs that are ultimately destined for use in western Europe. A number of the same countries have also been traditionally used as transit points for heroin from south west and south east Asia. Furthermore, it should be noted that people trafficking continues to take place in the more northerly group of west African countries.

The concerns of the Commission relate to the west African countries of:

- Morocco
- Mauritania
- Senegal
- Cape Verde Islands
- Guinea-Bissau
- Guinea
- Sierra Leone
- Liberia
- Ivory Coast
- Ghana
