The Commission is consulting on proposals to amend the framework underlying the Insurance Business (Bailiwick of Guernsey) Law 2002 (the “Law”) with the making of rules for Special Purpose Insurers and a related, minor amendment to the Insurance Business (Solvency) Rules 2015.

In making these proposals the Commission is responding to requests from industry, who believe that distinct rules for Special Purpose Insurers (“SPIs”) will assist in attracting Insurance Linked Securities business such as collateralised catastrophe reinsurance to the Bailiwick.

The proposed Insurance Business (Special Purpose Insurer) Rules 2016 (the “Rules”), which are provided in Annex 1 to this document, define a Special Purpose Insurer class of insurer.

SPIs may include certain types of insurance linked transactions business in Guernsey, including collateralised reinsurance, catastrophe bonds, side-cars and life based securitisations. SPIs must be fully collateralised to the extent of their liabilities, meaning that, unlike traditional insurers, they carry no risk gap between their liabilities and assets. Typically, cash assets will be applied against liabilities, however the Commission recognises that the commercial intentions of counterparties may be satisfied by the use of (re)insurance, letters of credit, or partly paid shares and the Commission may apply its discretion to approve the use of such assets (or a combination of them). When considering approval of the use of contingent assets the Commission will take into account the regulatory status, regulatory domicile, financial credit rating of the counterparty and any other information it deems relevant.

The proposed Rules also provide for application to the Commission by an established SPI structure to grant a single consent for the formation of further Special Purpose Insurer cells, whether generally or limited in extent, without further or additional application to the Commission, subject to certain conditions. These proposed provisions formalise current discretionary practice of the Commission under the Insurance Business (Licensing) Regulations, 2010.

It is further proposed that the Insurance Business (Solvency) Rules 2015 (the “Solvency Rules”) be amended to expressly include a SPI within the definition of a Category 6 insurer. As a Category 6 insurer, a SPI would not be required to maintain the Minimum Capital Requirement, Prescribed Capital Requirement or to conduct an Own Risk and Solvency Assessment. The proposed amendment to the Solvency Rules is described in Annex 2.

If approved it is proposed that the Rules will come into effect on 1 January 2017.

The Commission invites comments from all interested parties on the proposal as outlined in this document and the Annexes.
