- MONEYVAL Report – January 2016:

“the list of factors of to which EDD must be applied omits some higher risk categories”

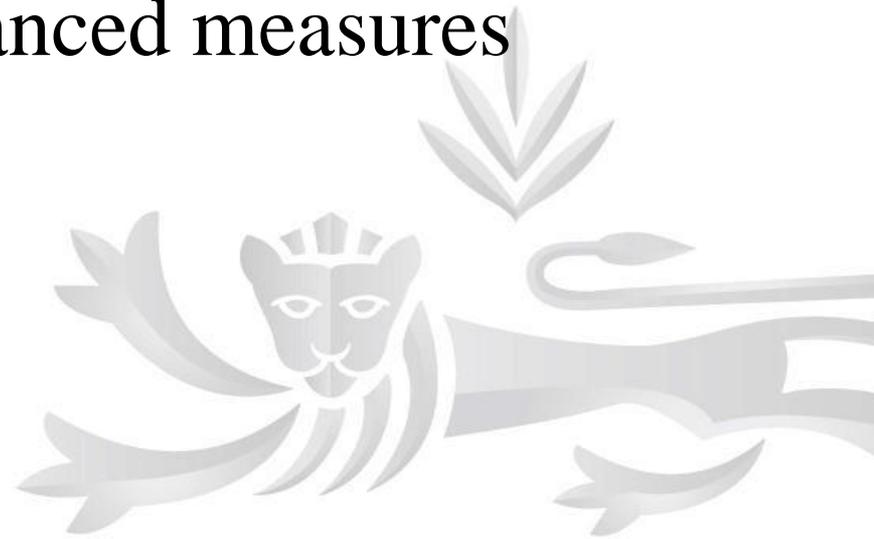

Enhanced Measures

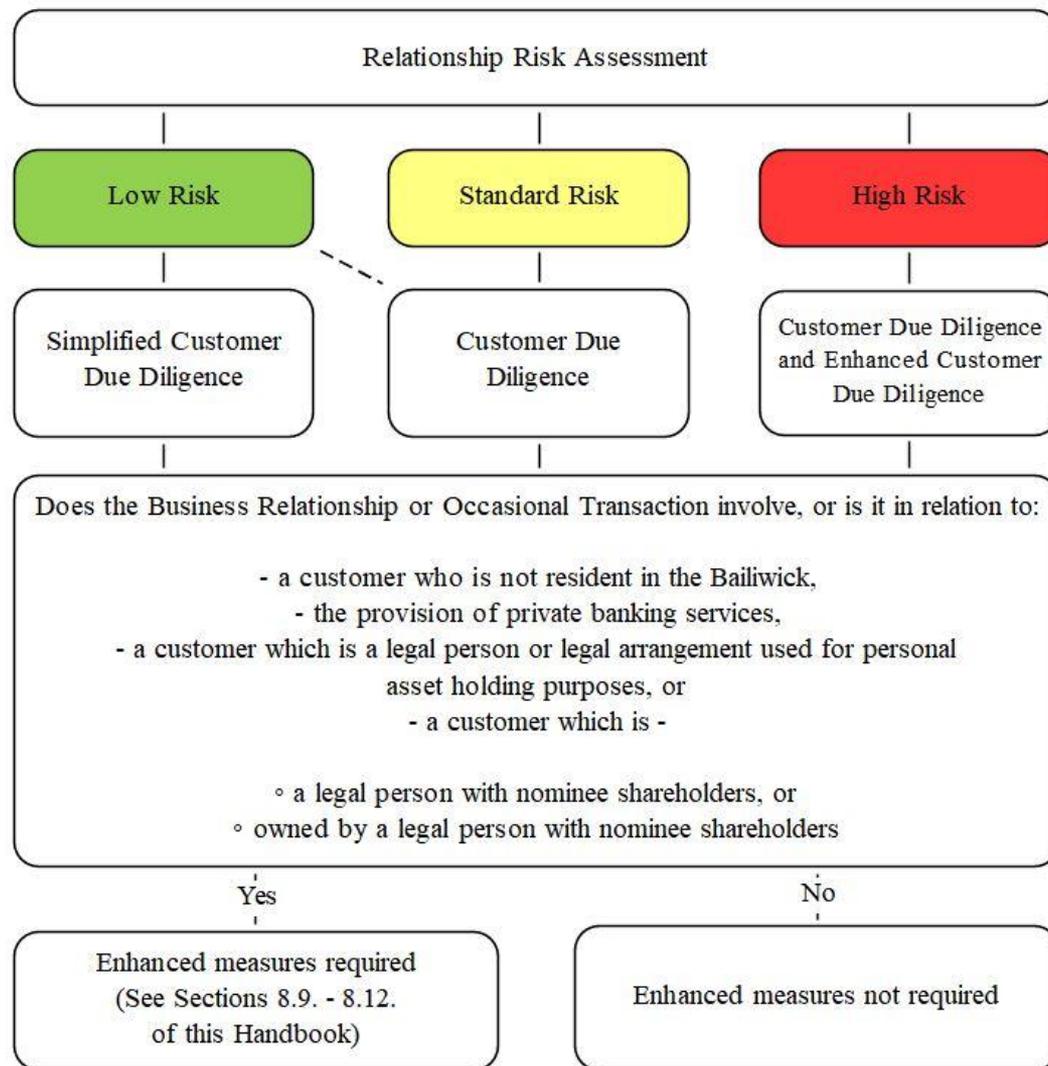

- The application of enhanced measures to a business relationship or occasional transaction serves to mitigate the risk associated with particular higher risk factors identified by the FATF.

 - Customer Not Resident in the Bailiwick
 - Customer Provided with Private Banking Services
 - Customer is Used for Personal Asset Holding Purposes
 - Customer has Nominee Shareholders, or is Owned by a Legal Person with Nominee Shareholders

- How do I record the enhanced measures applied?
- Existing Customers

Three Step Test of Beneficial Ownership

Case Study 1

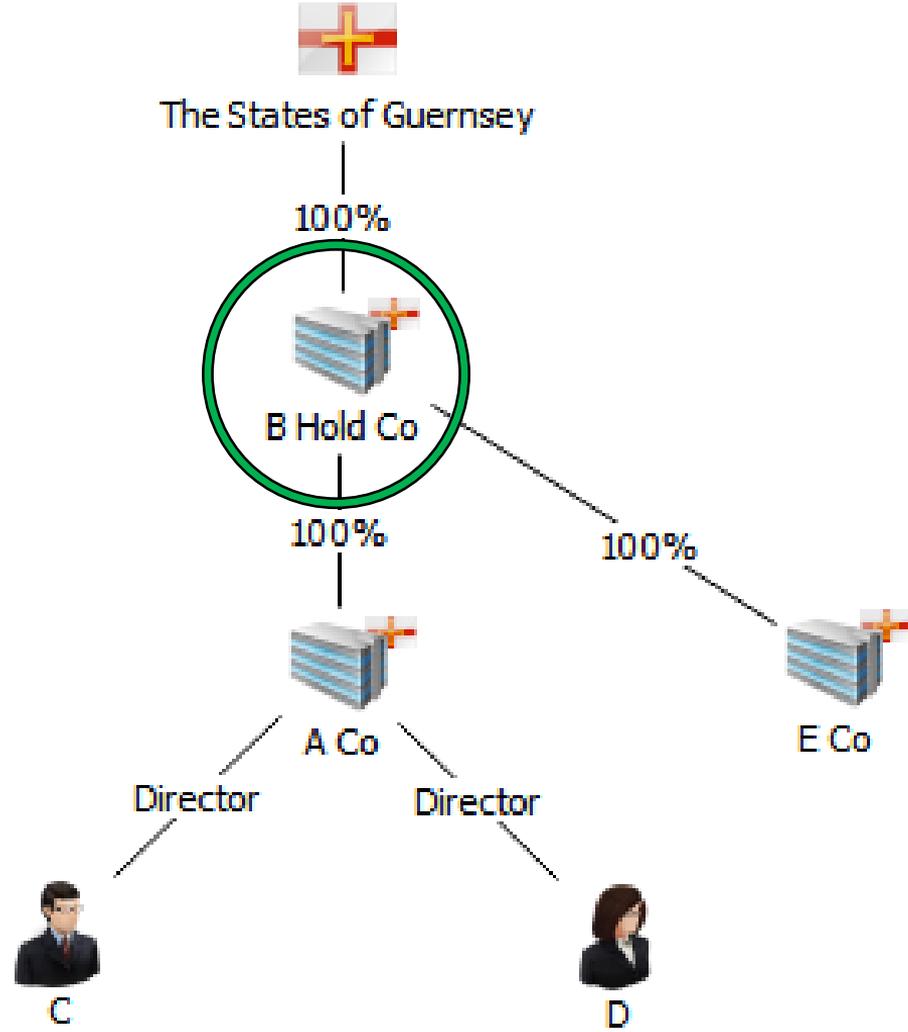

~~Step 1~~

Step 2

Transparent Legal Person

- Paragraph 22(5) of Schedule 3:
 - ‘In any case where a transparent legal person has control of a legal person through ownership, that transparent legal person shall be treated as a natural person...and therefore (for the avoidance of doubt) as the beneficial owner’
- Paragraph 22(10) Defines ‘Transparent Legal Person’ as:
 - a company that is listed on a recognised stock exchange, or a majority owned subsidiary of such a company;
 - a States trading company within the meaning of the States Trading Companies (Bailiwick of Guernsey) Law, 2001;
 - a legal person controlled by the States of Alderney through ownership; or
 - a regulated person within the meaning of Section 41(2) of the Beneficial Ownership Law.

Case Study 2

Step 1

Trusts

- Paragraph 22(4) of Schedule 3:
 - ‘In any case where a trust or other legal arrangement controls a legal person through ownership, the beneficial owners of that legal person are the beneficial owners of that trust or legal arrangement’.
- Paragraph 22(8) of Schedule 3:
 - In relation to a trust, "beneficial owner" includes (amongst others) –
 - any beneficiary who is a natural person, whether his or her interest under the trust is vested, contingent or discretionary...

Case Study 3

Indirect Ownership

- Handbook, Paragraph 7.53.
 - An indirect holding within a chain of ownership may arise in one of two ways:
 - The first is when an entity holds more than 25% of the shares or rights in the legal person and an individual has a majority stake (i.e. a greater than 50% shareholding or similar) in that entity so can control those shares or rights. The majority stake may be held directly, but it may also be held through a chain of ownership with the individual holding a majority stake in each intervening entity.
 - The second is where the overall value of an individual's holding in shares or rights in the legal person, when quantified back through the ownership chain, amounts to more than 25%. An individual who has indirect ownership in either or both of these ways is a beneficial owner of the legal person.

Control Through Ownership

- Paragraph 22(6) of Schedule 3:
 - ‘A person has control of a legal person through ownership if that person holds, directly or indirectly, any of the following –
 - a) if the legal person is a company –
 - i. more than 25% of the shares in the company,
 - ii. more than 25% of the voting rights in the company, or
 - iii. the right to appoint or remove directors holding a majority of voting rights on all or substantially all matters at meetings of the board...

For Consideration:

- Video Identification (Use of Webcams)

Credit Reference Data

8. Subject to Section 9.3. of this *Handbook*, the firm must verify a natural person's identity using *identification data*, the extent of which is to be determined based on the conclusion of the *relationship risk assessment*. As a minimum, the firm must verify:

For all natural persons:

- (a) legal name;
- (b) date of birth; and
- (c) residential address.

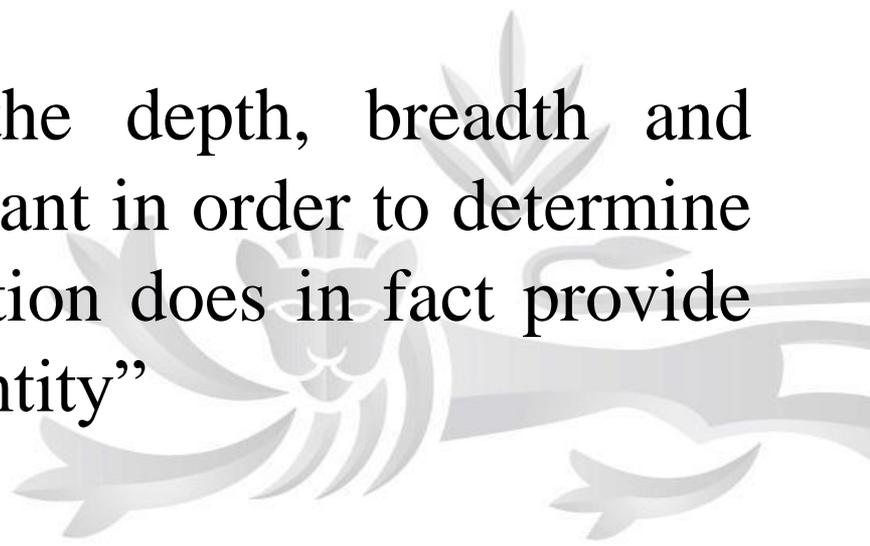

For natural persons connected with *business relationships* or *occasional transactions* which are other than low *risk*, additionally:

- (d) place of birth; and

CDD Utilities

- Section Removed from the Revised Handbook
- Section 5.7. – Independent Data Sources

“...an understanding of the depth, breadth and quality of the data is important in order to determine that the method of verification does in fact provide satisfactory evidence of identity”

Mobile Verification Applications

- Handbook, Section 5.6. – Electronic Verification

‘...the use of an electronic method or system to verify, in whole or in part, the identity of a natural person...’

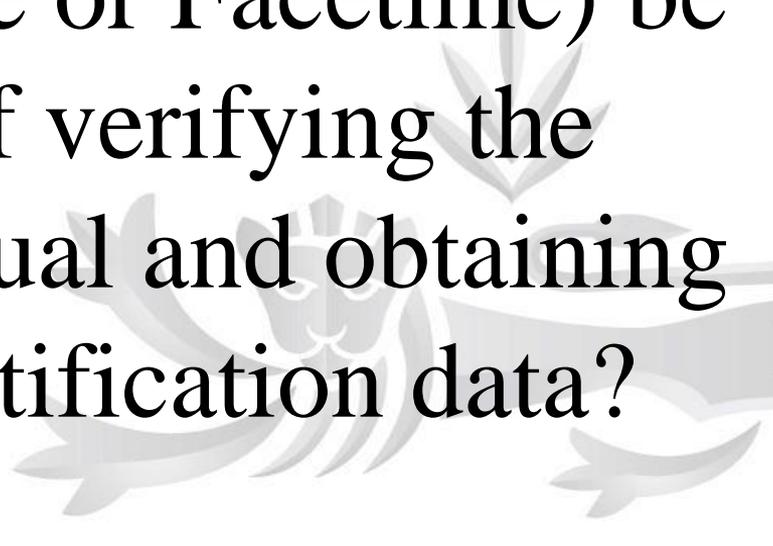

- Handbook, Section 6.5. – Certification

Requirements for Electronic System Certifiers

- Clear Written Procedures on the Use of Video Identification, and the Management and Retention of Audio-Visual Recordings
- Incorporate into Compliance Monitoring Programme
- Receive Careful Board Consideration and Approval to the Use of Video Identification

ALL CLEARLY DOCUMENTED

Acceptable Under the Framework? – Procedures

- Procedures to Cover:
 - Staff Training
 - Consent Issues
 - The Conduct of Video Meetings and Areas to be Covered
 - The Quality of Audio and Visual Technology Required
 - The Retention, Storage and Retrieval of Records Captured

Approach in Other Jurisdictions

- Germany - BaFin Approach:

“The BMF's interpretation is that, in cases of video identification, regardless of the physical separation, sensory perception of the (natural) persons participating in the identification process is possible, since the person who is to be identified and the employee sit opposite one another "face to face" through the video transmission and communicate with one another”

https://www.bafin.de/SharedDocs/Veroeffentlichungen/EN/Rundschreiben/2017/rs_1703_gw_vid_eident_en.html

Approach in Other Jurisdictions

- Malta – FIAU 2018 Consultation:
 - ‘Use of Video Conferencing Tools’

“Subject persons may also remotely verify the identity details of a customer through video conference facilities. A video call may be carried out subsequent to the customer submitting copies of the identification or other verification documents...(e.g. by email) or by making such documentation visible in the course of the video conference call”
